

Remarks

The Examiner's summaries of telephone interviews are correct. Applicant thanks the Examiner for his help. After consideration, Applicant has decided to first pursue the subject matter of Group II (claims 39-75). Applicant reserves the right to pursue the other claims at a later date by way of divisional or other appropriate filings.

The written restriction defines Group II as directed to a system for expression storing and transmitting. Applicant respectfully submits that the words of the claims speak for themselves. Claim 39, it is noted, recites among other things: An expression storing and transmitting system [comprising:] (a) activity description recording means ...; and (b) first sharing means for transmitting ... to alike systems or unlike systems. Applicant reserves the right to present additional claims consonant with the present election.

Request for Examination

In view of the above election, substantive examination of Group II (Claims 39-75) is respectfully requested.

The Commissioner is authorized to charge any underpayment or credit any overpayment to Deposit Account No. 50-2257 for any matter in connection with this response, including any fee for extension of time and/or fee for additional claims, which may be required.

Respectfully submitted,

Gideon Gimlan
